

Miracles Do Happen

We have a small wood at the rear of our property. Last year Grant had the idea to put our jack-o-lantern in the small flower garden just at the edge of the woods for our little forest creatures to snack on. Lo and behold to our surprise and delight we discovered, this summer, that where he had left this treat, a beautiful flowering vine had appeared and attached to this was a perfect little pumpkin for us to enjoy this year. Little miracles can appear when we least expect them.

Dear Jesus,
Help us to recognize the beauty in the little things ... the small miracles in our everyday lives.
